VISION STATEMENT

It is the vision of the Drug Treatment Court Commission that the State of Maryland is made safer through the collaboration of multi-disciplinary, government and private sector organizations and individuals working together to reduce addiction-driven crime and drug usage, to improve the quality of life and to promote the positive integration of drug abusing individuals with family and community.

MISSION STATEMENT

The mission of the Drug Treatment Court Commission is to establish a comprehensive, integrated and coordinated systems approach to the development, implementation and operation of Drug Treatment Courts across the State of Maryland. This will include developing, supporting and facilitating the access and delivery of comprehensive, effective and appropriate treatment providers. The Commission will assist Drug Treatment Courts to operate at the highest levels by developing best practices, by providing training, technical assistance and support services and by facilitating the evaluation of these services.
